

## MINUTES

### Epsom NH Conservation Committee

January 19, 2017

#### Attendees

#### Guests

Alison Parodi, Chair Cal Preston, Member Denyce Gagne, Member Donald Gagne	
---	--

#### Old Business:

- Date to install trail and parking signs fell through--new date set for Sunday the 29th of January at 1:00 PM; meet at Cal Preston's house.
- Recapped decision to provide flower seeds for Earth Day give away; need to determine species.

#### New Business:

- Tarleton Rd is again flooded by beaver activity making access to the Town Forest more challenging. Trapper did not succeed in trapping out beaver last summer; Cal will contact him to see if he's willing to try again.
- Alison will search for a fact sheet regarding Volatile Inorganics to provide information to a resident.
- Winter parking for Town Forest discussed; neighbor is unhappy with people parking in front of his home. The ConCom will look into having the Town determine safe winter parking and look at possible signage on the road.
- Smith, Fokas, and Jackson Properties were monitored for compliance to conservation easements last October. Paperwork for Smith was completed; paperwork for Fokas and Jackson will be completed when Members meet to install signs. Copies of completed reports will be sent to landowners and OEP.
- ConCom page on Town website needs to be updated with member names and contact info, and to start posting minutes.

**Next meeting: February 16th, 5:00 PM**
